

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

An Important Law Book, Unique in Character and Design.

Remsen on the Preparation and Contest OF WILLS

WITH PLANS OF AND EXTRACTS FROM IMPORTANT WILLS

By DANIEL S. REMSEN of the New York Bar.

Author of "Intestate Succession in the State of New York."

In One Octavo Volume of 880 pages. Handsomely Bound in Law Convas. Price \$6.00 net, or \$6.35 sent by express, charges prepaid.

The object of this book is to aid the legal profession when called upon to advise in the planning, preparation and contest of wills. It is prepared with special reference to

- (1) Planning a will suitable to the testator's wishes, family and estate;
- (2) Preparing a will that shall if possible accomplish the testator's purpose without dispute and be capable of withstanding legal assaults;
- (3) Determining when and by whom the probate of a will may be successfully contested.

The theory of this work is that a well planned and properly prepared will besides being a credit to the profession, is a safeguard to the estate of the testator and the happiness of his family, and that when a contest of a will is begun it should be entered upon advisedly. In these respects, it is often quite as difficult, as it is important, to properly advise clients because of the fact that most works on the subject of wills view testamentary questions from the usual *post mortem* standpoint, when it is too late to correct any defects which may be discovered. The point of view here taken is *ante-mortem*; that is, at a time when mistakes may be avoided, or if already made may be corrected—a point at which the most satisfactory and valuable professional services can be rendered. In other words, the plan here pursued is synthetic and preventive rather than analytical and remedial.

The plans of and extracts from 78 important wills prepared by the most eminent legal talent, constitute a valuable body of precedents and form Part II of the book. The wills represented are such as the Armour, Astors, Belmont, Browns (of Providence), Crockers, Evarts, Field, Goeleys, Leiter, Minots, Rhodes, Sage, Stanfords, Thaw, Tiffany, Vanderbilts, Whitney, etc.

The charts contained in the book it is believed will be very helpful in the solution of difficult questions where estates or interests in property and their vesting are under consideration.

The author is an active practitioner of many years experience at the New York Bar and an expert in testamentary law. For many years he has made a special study of the subjects of the present work and a critical examination of the most important wills in this country. Much of the matter for this volume has been accumulated by him in his practice during this time.

BAKER, VOORHIS & CO., Law Publishers,
47 & 49 LIBERTY STREET, NEW YORK.

(For Sale by all Law Booksellers.)

The Reason Why

Would you like to know just why The Lawyers' Reports Annotated is what it is, to-day?

Just what it is that has made it the most widely circulated set of Reports in the United States, and in every respect placed it at the very forefront of American legal publications?

L. R. A. is not a new publication. It was started in 1888 and has been issued regularly since that date as a subscription publication.

It did not at the first have any great success, but had to gain slowly in the face of well-established opposition. Why its later and present high standing?

Because the publishers have always recognized the fact that no *permanent* success could be had by advertising, sales force or in any other way than by *actual merit*.

Every subject note in the L. R. A. is treated as if it were a distinct publication, or as if by that particular note the reputation of the set were to stand or fall. Nothing is spared to make each a perfect treatise on its subject. No note is ever a mere rehash of some preceding work or works but represents the most laborious research of original cases, making a real monograph—complete and *exhaustive*.

Such a policy made the outcome simply *inevitable*. The set was bound to become what it now is—an invaluable library of American Case Law,—always up to date because founded on reports of current valuable cases.

We would like to send you, gratis, a 50 page pamphlet "L. R. A. New Series Up to Now," which indexes the Notes in the four volumes of L. R. A. New Series published in 1906. This New Series gives you an opportunity to start your L. R. A. now at small expense.

Ask for our special proposition. It will interest you.

AN IMPORTANT NEW BOOK ON INTERSTATE TRAFFIC LAWS

HAMLIN'S INDEX - DIGEST **OF THE** **INTERSTATE COMMERCE ACTS**

BY

CHARLES S. HAMLIN, Esq.,
Of the Boston Bar

It contains the text of the important laws of the United States relating to railroads, shippers, etc., **as officially printed** by the Interstate Commerce Commission, including the original Interstate Commerce Act of 1887 and amendments and the Act of June 29, 1906; it also includes the Sherman Anti-Trust Act, the Act of June 11, 1906, relating to the liability of railroads to their employees, the unrepealed clauses of the Wilson Tariff Act relating to trusts in the import trade, the Acts as to testimony and immunity of witnesses, and others.

To these is added **A consolidated index of the principal words and phrases used** in the above Acts, **a concise digest of the laws**, and citations of all uses of the same words and phrases in the different Acts.

As these Acts have been held by the Courts to be of kindred nature a comparison of different uses of the same word or phrase will be most valuable in the interpretation of these statutes.

Changes in earlier laws are indicated on the margin of the text.

All references in the digest are to be sections, pages, and lines, all lines in the text of the Acts being numbered.

The work will be of special value to lawyers, railroad officials, shippers, commercial bodies, etc.

Svo. Buckram, \$3.50 net, delivered

LITTLE, BROWN & CO., Publishers,
 254 Washington St., BOSTON, MASSACHUSETTS

MAY 31, 1907

will be the last day that you can purchase, at the advance price of \$6.50 per volume,

THE 20TH CENTURY

OBJECTIONS

Sprung at the Trial won't bother you—if you have the Encyclopaedia of Evidence

It turns days, weeks and months of search into hours—

It guards against failure of proof—

It won't allow your opponent to introduce illegal evidence.

Is it Worth While to spend days and weeks preparing each case for trial, when the "Encyclopædia of Evidence" contains an exhaustive brief on all causes of action showing the method of proof, what is admissible, what to prove and how to prove it?

Is it Worth While to spend months on your pleadings, finally go to trial and fail on your proofs or allow your opponent to introduce illegal evidence?

Is it Worth While to work and worry over text books to find a few cases only, when we give you ALL the cases—15,000 to 20,000 in each volume?

Is it Worth While to jeopardise your client's interests and your own reputation by going to trial, relying on the FEW cases found in text books, without first having examined EVERY CASE bearing on all the questions involved?

Is it Worth While to try to practice law in this, the twentieth century, an age of case law, without the "Encyclopædia of Evidence?"

The terms are easy.

The price, \$6.00 per volume.
